PROFESSIONAL SUMMARY

I am a passionate Laravel backend developer with hands-on experience in building web applications, including a job portal, idea submission portal, and student LMS system. I enjoy designing databases, writing clean and efficient code, and turning project ideas into functional systems. I am committed to continuous learning and improving my skills to deliver reliable and user-friendly solutions. As a motivated learner, I take pride in my ability to work independently and explore new technologies to stay up-to-date in the field of web development.

WORK HISTORY

Laravel developer
.

Laravel Developer
(Jan 2024 – Present)
- Developed a Laravel-based job portal featuring user authentication, job postings, company profiles, and job search filters.
- Created an idea submission portal that allows users to submit, view, and manage ideas with category management and user dashboards.
- Built a student LMS (Learning Management System) to manage students, classes, subjects, academic years, and attendance, including teacher and admin panels.
- Designed and implemented relational databases, ensuring data integrity and performance optimization.
- Used Blade templates to build clean, responsive front-end interfaces.
